

Roman Gomez

Joining the Game On family has already been a great opportunity to work with established professionals on a daily basis. Most of all, I am excited about having an immediate impact on the youth of Fort Worth and the surrounding areas.

In my career as a baseball instructor and player, I have completed 4 years of professional baseball. Including 2 years as a pitching coach/player during the 2015 and 2016 seasons. I spent the 2016 season in Vallejo, California with Vallejo Admirals of the Pacific Association. In my time with the Admirals I was awarded the Dennis Neal Award for Pitcher of the Year. Prior to being an Admiral, I was the student assistant pitching coach for the University of Texas – Arlington for the 2016 Spring season. In 2015, I was also a pitching coach/player for the Glacier Outlaws of the Mount Rainier Professional baseball league. For 2014 season, I played for the Brownsville Charros of the United League under the management of Ozzie Canseco. In 2013, I played for the Fort Worth Cats of the United League as well.

During my college career I played for 3 different programs serving as a catcher and pitcher. My junior and senior seasons (2012-2013) were spent with Northwood University of Cedar Hill, TX. There I was an All-Conference selection for our World Series team. I also played at Blinn College in 2011 and St. Mary's University (Texas) in 2010.

While I continue my education at The University of Texas – Arlington, I will be pursuing my Bachelors of Science.
